SUMMARY

Computer Science student at BINUS University, minoring in Data Science, with a strong interest in data driven careers, machine learning, and software development. Skilled in Python, C, SQL, and more, ready to learn more programming languages. Seeking an internship to apply and expand technical skills in a professional environment while contributing to meaningful projects.

PROJECTS

Detectomato, Tomato Disease Detection AI

A Flutter app for detecting tomato leaf diseases using a ResNet50-based CNN model optimized with TensorFlow Lite.

IBM Granite Data Summarization, Implementation of Generative AI for Data Analysis

Prompt engineering and generative AI for data analysis by leveraging the IBM Granite large language model via a Python API.

Deck Knight, Game Project

A passion project to learn the core principles of game design and programming logic using Godot Engine and its scripting language GDScript.

Smart Recipe Recommender, Recommendation AI

A website that can generate pre-made recipes based on available ingredients based on user's input. Implementing Content-Based Filtering (CBF) system to suggest recipes based on a user's ingredient input.

EDUCATION

BINUS University, Semarang — Computer Science

Expected Graduation: 2027

Current GPA : 3.9

Coursework : Data Science, Machine Learning, Deep Learning

SKILLS

Programming Languages:

Python, C, SQL, R, JavaScript, HTML, GDScript

Soft Skills: Problem-Solving, Self-Discipline, Adaptability, Independent Learning

Tools & Technologies: Godot Engine, Git, GitHub

AWARDS

Data Classification and Summarization Using IBM Granite | IBM Skills Build

LANGUAGES

Indonesia (Native)

English (Fluent)
